

PLANT ADAPT 2018

12-14 September 2018, Banyuls-sur-mer, France

SCIENTIFIC COMMITTEE

Deragon Jean-Marc, University of Perpignan,
Panaud Olivier, University of Perpignan,
Casacuberta Pep, CSIC Barcelona,
Garcia-Mas Jordi, IRTA Barcelona,
Roux Fabrice, CNRS Toulouse,
Dunand Christophe, University of Toulouse.

KEYNOTE SPEAKER

Magnus Nordborg, Gregor Mendel Institute, Austria

Dear friends,

We are delighted to invite you to our first Plant Adapt meeting 2018.

Our meeting brings together researchers from Labex TULIP (Perpignan, Toulouse) and from CRAG (Barcelona) focusing on the interface between plants and environment.

A program will soon be available that will include one keynote address by Magnus Nordborg, 24 talks selected from the abstracts (including 10 talks reserved for PhD students and post-docs) and a poster session. You can find more information, register and send an abstract by contacting the LGDP website (<http://lgdp.univ-perp.fr/>) and clicking on the PlantAdapt 2018 tab.

The number of participants is limited to 100, including the speakers. The deadline for registration is **April 1st, 2018**. The deadline for abstract submission is **May 31th, 2018**.

The meeting will take place from 12-14 September 2018.
The first (keynote) talk will be on the 12th at 7 p.m.

We choose Banyuls-sur-mer, France for our meeting, as it is a seaside town at the heart of the Vermillion Coast (see <http://www.banyuls-sur-mer.com/en>).

Please do not hesitate to contact us if you need additional information. Elisabeth and Odile (plantadapt@univ-perp.fr) are in charge of the organization of the meeting and are available to answer your questions

We are looking forward to seeing you soon in Banyuls !

Jean-Marc Deragon
